Career Objective

Skilled and results-driven **QA Engineer** with 6 years of experience in designing, developing, and executing automated test scripts for web applications and APIs. Adept in both **manual** and **automation testing** to deliver high-quality software products in fast-paced, dynamic environments. Strong background in using tools like **Selenium WebDriver, Rest Assured**, and **Cucumber** to automate test scenarios, ensuring continuous improvement and quality assurance across all phases of the SDLC.

Technical Skills

- **Languages:** Core Java, OOPS Concepts

- **Automation Tools:** Selenium WebDriver, Rest Assured, UI Automation

- **Frameworks:** Cucumber, BDD

- **Test Management Tools:** JIRA, JIRA XRAY

- **CI/CD Tools:** Gitlab

- **API Testing Tools:** Postman

- **Database:** Oracle SQL Developer

- **Testing Types:** Smoke, Sanity, Functional, Regression, System, Integration

- **Methodologies:** Agile, Scrum

- **Version Control:** Git

Professional Summary

- **6 Years of diverse experience** in Software Testing (Manual and Automation) with a solid understanding of Test Requirements, Test Design, Test Execution, Test Execution Report and Defect Reporting & Tracking.
- Sound knowledge of **Core Java, OOPS Concepts.**
- Strong Experience in Automating Web Applications using **Selenium WebDriver** in **Java** language.
- Developed and deployed a Selenium-based UI automation framework, significantly reducing manual testing efforts.
- Strong Experience in Automating API Applications using Rest Assured in Java language
- Experience in design and development of **Cucumber framework/BDD framework.**
- Experience with **Cucumber BDD** and writing **Gherkin** scenarios.
- Experience in CI/CD Tool like **GitLab.**
- Knowledge of **API Testing** using **POSTMAN** tool.
- Expertise to all SDLC and STLC Phases, Bug Life Cycle with strong focus on testing stages.
- Good Experience in working with **Agile Methodology**.
- Extensive experience in Smoke, Sanity, Functional, Regression, System as well as Integration testing.
- Experience in using Test Management Tool like **JIRA.**
- Good exposure on **Database Queries** for extracting the test data from Database

Professional Experience

Callesto International, Pvt. Ltd.— *SDET Engineer*
Project: Telecom Domain

May 2025 – Present
Notice Period: 1 Month (Can join within 15 days)

- Built and maintained automation frameworks for Web, API, and Mobile.

- Automated regression using Selenium, Rest Assured and TestNG.

- Applied Dynatrace for monitoring and performance validation.

Sopra Banking Software (Sopra Steria Subsidiary) — *July 2023 – Dec 2024*
Project: Banking Domain (BFSI)
Tools: Selenium WebDriver (Web), Cucumber, Rest Assured (API), JIRA

- Participated in testing banking applications across investment banking, accounts, payments, loans, cards, and term deposits.

- Developed and implemented a **Selenium-based UI automation framework** for core banking applications.

- Executed regression and sanity test cases across multiple environments.

- Conducted manual test executions as required, ensuring comprehensive test coverage.

GlobalLogic (Hitachi Group Company) — *Sep 2019 – July 2023*
Project: Travel Domain (Flights)
Tools: Selenium WebDriver, JIRA

- Led requirements analysis, test case design, and test data preparation for a variety of travel-related applications.

- Developed **Selenium WebDriver** scripts for popular airlines like **American Airlines**, **IRCTC**, **Air France**, and **British Airways**.

- Designed and executed automation test scripts for UI/Web functionality and regression testing.

- Regularly maintained and updated automation scripts to ensure consistency across testing environments.

Intellogrit Pvt Ltd, Noida (QA) — *Aug 2018 – Apr 2019*
Project: Retail Domain

- Prepared test cases, test data, and tracked defects.

- Performed manual testing for functional coverage.

Education Qualification:
- Master of computer application (MCA)
